Summary :

Dynamic Java Developer with 6 months of experience building robust software solutions. Expertise in Java programming and collaborating effectively in cross-functional teams. Proven ability to solve complex problems and adapt to evolving technologies. Eager to contribute my skills and enthusiasm to drive success in challenging projects.

Experience :

- Jr. web Developer | Neuro Flares | Mysuru, Karnataka | 2023
- Contributed to the development of a customer-facing e-commerce platform, implementing new features and resolving bugs.
- Collaborated with senior developers to design and implement scalable solutions, enhancing the overall system architecture.
- Engaged in troubleshooting and debugging to identify and fix software defects, ensuring a smooth user experience.
- Gained hands-on experience with Spring Framework and Hibernate, enhancing skills in Java development.

Java Skills :

- To use Java technologies and to develop web applications.
- To add functionalities to existing applications using Java. Object-oriented programming (OOP's concepts).
- Constructors, Access specifiers. Abstract classes and interfaces.
- Developing the java application using Spring, Spring Boot, Hibernate, JDBC.
- Perform user requirement analysis to design the program application.
- Play a role of pivotal team member, to develop new applications using spring in backend and frontend.
- Highly interactive and customized UI's using Java, HTML,CSS, JSP & Basics of JavaScript to perform and develop web applications.
- Enhanced quality of coding and improved application performance and reduction in bugs.

C# Skills

- To Create the Model,View,Controller layers.(MVC)
- To Create the Endpoints of get,post,put,delete methods using ASP.Net.(CRUD OPERATION)
- To connect the database and interact with the database.(DB Conectivity)
- validating the project to enter required inputs from the user.
- To obtain the database contants in the json format.
- To use the dapper library for linq query.

Education :

Completed B.E in mechanical Engineering with the CGPA of 7.09
Year Of Passing :2021

Technical Skills :

- **Knowledge Area :** core java,J2EE, Spring, Springboot, Hibernate, JDBC, Mysql, oracle SQL , HTML, CSS,
- **Programming Language :** JAVA, C#, Python ,SQL,.
- **Tools Used :** Eclipse, Postman, VS Code, STS, Visual Studio, MSSQL, MySQL.

Project Description :

- **Project Name:** Holoeye
- **Environment:** Windows 11 with C# and Java
- **Team Size:** 5 members.

Roles & Responsibilities :

- Installing MySQL database and creating database.
- Creating view using JSP tags.
- Adding controllers and annotations in spring boot to interact view with the backend logic.
- Creating entity class.
- Fixing the bugs and defects identified.
- Creating the Endpoints i. e ,POST,GET,PUT,DELETE etc.
- Validating the projects for the required.
- storing the input form the server to the database.
- Creating repository layers to perform database operations in spring boot.
- Implementation of useful Web services.
- Creating web-application using Micro services.
- Exposing and consuming of web services.
- Using postman application for testing Web services.
- Configuration of application properties file.

Declaration :

The above information provided by me is correct to the best of my knowledge and I shall be grateful if you provide me the chance to work in your company. I shall work to the best of my abilities and try to level up to your expectations.
